Magellan Health Services, Inc. Selects netASPx to Provide Managed Applications Services

HERNDON, VA, June 26, 2007 – netASPx, the leading Managed Applications Services provider in delivering “Software as a Service” to the Healthcare industry is pleased to announce that Magellan Health Services, Inc. has joined the growing number of netASPx customers.

Magellan Health Services, Inc. has understood for some time the value of having its enterprise applications managed by a highly qualified and focused Managed Applications Services (MAS) vendor, providing:

- Lower Total Cost of Ownership (TCO),
- Increased efficiency and effective use of Lawson applications,
- Lower risk profile associated with operating Lawson applications.

“We selected netASPx because of its highly focused team and history of demonstrated success in managing Lawson applications,” said Jeffrey N. West, Magellan’s controller. “We have been pleased with our migration to netASPx and are looking forward to a continued successful relationship.”

netASPx’s 10 years of experience, nearly 100 customers and focused expertise were drivers of Magellan’s decision to choose netASPx and deliver on the promise of MAS. “At netASPx, we only make commitments that we can keep and keep all the commitments that we make,” said John Whiteside, President and CEO, netASPx. “We are proud to have the opportunity to earn the business of Magellan and bring them into our family of healthcare customers”.

About Magellan:

Headquartered in Avon, Conn., Magellan Health Services, Inc. (Nasdaq:MGLN) is a leading specialty health care management organization, managing behavioral health, radiology and specialty pharmaceuticals for government agencies, health plans and corporations.

About netASPx:

netASPx, headquartered in Herndon, Virginia, is both a pioneer and the leading innovator in the delivery of “Software as a Service.” A premier Managed Applications Services (MAS) company, netASPx maintains facilities and infrastructure designed specifically to support Finance, Human Resources, Accounting, Payroll and Supply Chain Management solutions from industry leading software manufacturers including Kronos and Lawson Software, as well as complementary applications. Our professional and operations service offerings, delivered at the customer site or hosted in our facility, drive down total cost of ownership, manage risk and deliver superior service levels, freeing up capital and resources to focus on driving new services for our

customers. netASPx operates a secure, scalable "Fortune 50" Operations Center in Minneapolis, Minnesota, from which we have provided uninterrupted service since 1986.
